

# DOES YOUR CURRENT CREDIT CARD PROCESSOR HAVE YOU COVERED?

## Your business is your livelihood.

That's exactly why you go to great lengths to protect it and nurture it's success. As such, you insure your property, your inventory and your employees... but what about your customer's credit cards you are processing?

As mandated by all the card brands Visa, MasterCard, Discover and American Express, PCI Compliance is a fact of life for businesses processing credit cards today. But even if your business is compliant, **you are still at risk of a breach**. The fees and fines associated with a breach can total in the tens of thousands of dollars. In many cases, putting you out of business. Is it worth the risk?

With Electronic Merchant Systems, every merchant is automatically enrolled in our data security breach protection plan. **For just \$6 a month your business receives \$100,000 worth of coverage\***. We challenge you to find a better rate anywhere on the market.

## Peace of mind.

It's just one of the many benefits a partnership with EMS offers.
